## PLEASE READ AND SIGN:

Canter Hill Farm raises Heritage turkeys outside on pasture, the way we believe they should live. Weather (temperature and rain) has a huge impact on their growth and ultimate size for Thanksgiving. We absolutely want to and do our best to provide you with a turkey that fits the size range you selected but cannot guarantee that it will be within your range. By signing below, you're confirming that you understand this, and are supportive of the variability that true farming brings:
